Items discussed:

Chet Thomas : Needed a Conservation Commission sign off for a building permit for 200 Summit Hill Rd. Michelle had sent out a copy of the GIS Map for the site in question to the commissioners. The map showed no WPA concerns in the area at all. Chet presented his plan for building a house and explained the topography of the site. His building permit application did not have a sign off line or section for the Conservation Commission - Michelle will type a letter and send via email to Washington's building inspector, Paul Green.

Crocker COC: Michelle had visited the site before the meeting. She was able to see only three stakes. Berkshire Engineering rep said that his field person had set 13. Michelle asked him to send along a map designating the location of the 13 markers, she will then go to the site again to verify and the Commission will sign off on the COC after verification.
